Portfolio

PROFILE

Frontend developer based in Pescara, Italy, working with Angular and TypeScript since 2019. I design interfaces in Figma and build them into production, covering component architecture, NgRx state management, and performance. My last two roles centered on full interface redesigns for enterprise platforms, starting from research on how the existing product was used through to a shipped Figma-to-code process.

EXPERIENCE

Indra Italia

2022 – Present

Angular Consultant · Scrum, Kanban

- Designed and built interfaces for an Angular-based GIS platform used to manage and map electrical networks across multiple countries, working in an Agile team.
- Improved rendering performance through optimized change detection and lazy-loaded feature modules, and contributed to NgRx state management and architecture decisions.

Angular · TypeScript · NgRx · RxJS · Angular Material · Figma · ESLint · Karma

Herzum Software

2021 – 2022

Angular Consultant · Scrum

- Led the full UX/UI redesign of an enterprise management platform, starting from an analysis of existing usage patterns and shipping the new Figma design to production.
- Restructured the frontend architecture and refactored core modules with NgRx, improving maintainability.

Angular · TypeScript · NgRx · RxJS · Angular Material · Figma · ESLint · Karma

Net Service

2020 – 2021

Frontend Developer · Waterfall

- Built and maintained a back-office system for managing data across several mobile applications.
- Handled user accounts, roles, and permissions for platform administrators.

Angular · TypeScript · NgRx · RxJS · Angular Material

Smartourism

2019 – 2020

Frontend Developer · Waterfall

- Built the frontend of a web application for the tourism sector, implementing interactive UI components and integrating REST APIs within a modular Angular architecture.

Angular · TypeScript · RxJS · Angular Material
